INTERACTIVE PANELS 65/75/86 inch Conference IFP S Series

Creative Acoustic Structure Seam Speakers

The S Series opens a much smaller seam for the sound waves to travel through. The sound waves go directly to the participants, instead of bouncing from the floor. The power is increased by 14% with 2.1 stereo sound.

Collaboration Starts with S

The S Series inherits our concept of minimalist design while deliver intuitive interactions as well as outstanding sound and video performance. For both local meetings and teleconferences, participants may visualize their ideas instantly. Communication on a S Series defies distance with the updated audio & visual systems, giving the distant meeting attendees the feeling as if they were joining the session in person.

4K UHD Display Presentations Come to Live

K is now the default resolution in either operating system across S IFPs. The updated bonding technology reduces parallax so that we can write as if on a piece of paper. Even when looking from the side, we may hardly discern the distance between the fingertip and the colored display. Meanwhile, we are increasing the color gamut by more than 20% in all three series, providing more vivid colors.

4K UHD Display | Low Parallax | 90% NTSC Wide Color Gamut | Anti-glare

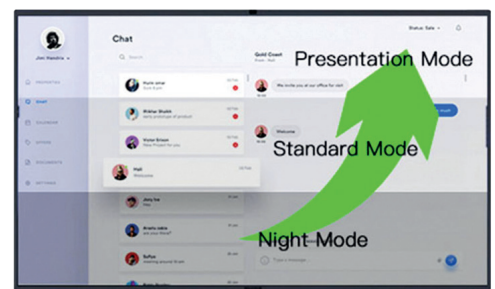

C3 Display Modes Satisfying Various Needs relative Acoustic Structure Seam Speakers

The previous display mode has been upgraded to 3 modes that enable precise and stunning presentation of images, while providing the most comfortable viewing experience.

Presentation Mode: Brighter Color for Video Playing

Standard Mode: More Natural Color for Daily Work and Discussion

Night Mode: Soft Light for Extended-period of Operation

INTERACTIVE PANELS 65/75/86 inch Conference IFP S Series

High-precision IR Touch Technology

The IR touch technology brings you natural writing experience. It responds with almost no delay at every single touch.

3.5 mm Writing Height | ± 1 mm Writing Accuracy

Type-C Connector, the Game Changer

A newly added USB Type-C port shares the screen to the S and enables reverse touch control from the touch screen. Meanwhile, it also allows access to the built-in camera and microphone array.

The Type-C provides easy access to the camera, microphone or loudspeaker of S via personal device. Now you can enjoy ultra wide-angle camera and powerful voice pickup features on your laptop. Besides, S supports extension mode via Type-C.
